

## Product/Services

Apollo Engineering is a regionally based, Australian owned company. Founded over 20 years ago, Apollo specialises in advanced manufacturing. We are the OEM for the following manufactured products;

- **Apollo Parts Washers** – state of the art parts washers for automating all of your workshop cleaning processes.
- **Biofeed** – the revolutionary food waste processing equipment for remote site applications, reducing the need to transport your solid waste offsite.

Being an OEM means that we are vertically integrated with extensive capabilities including;

- CAD/CAM design using Inventor and Mastercam.
- Laser cutting.
- CNC folding.
- CNC turning, milling and multitasking.
- Electrical board construction.
- Hydraulic and pneumatic system installation.
- Finishing.
- Assembly.

## Capabilities

- **Computer aided design and computer aided manufacturing** using the latest software from Autodesk Inventor and Mastercam.
- **Laser Cutting** – State of the art 12kW fiber optic laser with autoloading and unloading system, capable of cutting material up to 30mm in thickness with the fastest processing speed on the market.
- **CNC Bending** – CNC press brakes with capabilities of folding up to 4.1m. Highly accurate and repeatable.
- **CNC Machining;**
  - 5 axis multitasking machine.
  - 4 x dual spindle CNC lathes with bar feeder and robotic unloading system.
  - Horizontal machining centre with pallet changer.
  - CNC Mill with large machining envelope.
- **Welding and Fabrication** – Simple to complex welding tasks can easily be handled in our welding and fabrication shop. We provide in-house MIG, Pulse MIG and TIG services.
- **Finishing** – With a 10m x 5m Spray & Bake booth, we have the ability to provide the highest quality painted finish.

## Discriminators

- Lean systems focused.
- ERP/MRP production systems.
- Advanced manufacturing capabilities.
- Complete in house solutions.
- 20 years experience as an OEM.

## Key Customers

- **Cleanaway** – Cleanaway have been a distributor for Apollo Parts Washers for over 20 years and are now agents for *Biofeed*.
- **Remondis** – Supply Apollo parts cleaning equipment into Hastings Deering (QLD CAT dealer).
- **Westrac** – Engaged Apollo Engineering to design and build bespoke cleaning equipment to suit their workshop requirements.
- **Trakindo** – The second largest CAT dealer in the world, Trakindo have used Apollo parts cleaning equipment throughout Indonesia for over 15 years.
- **MTU** – MTU use Apollo parts cleaners all over the world – Indonesia, New Zealand, Chile, Taiwan.
- **VLI** – Supply of various laser cut and folded components for critical breakdown and repair work as well as complex machined parts.
- **Superior Pak** – Supply a large number of machined parts as well as fabricated sub-assemblies for use in the waste industry.

## Quality Standards and Other Accreditations

ISO 9001 and 45001

Manufactured products certified to AS4024 standards.

## Contact/Address Details
